

## Harnessing The Power of Solar Energy Saved Them 22%

Energy Independence. More Choice. Less Waste.

### Solar Project for Manufacturer Shows \$1.9 Million in Savings

*Energy Professionals specializes in Natural Gas and Energy procurement, offering competitive pricing and best in class service.*

## Introduction

When a long time Energy Professionals client started to ramp up production, they realized that energy costs were becoming a major pain point to expansion. Energy Professionals had helped manage procurement costs for years, however the client needed a more holistic approach to drive down costs.

## The Problem

-  Overspend preventing expanded production capabilities
-  Budget control
-  Increasing energy bills

As an organization, they were looking for a way they could reduce costs while also reducing their carbon footprint. With production levels ramping up, the client needed a permanent solution that would ensure energy costs remained palatable.

## The Solution

Energy Professionals was able to conduct an energy audit, build a nearly working model on the potential for solar, and put out a RFP to find the best available solution.

Thanks to our nationwide network of top-tier Solar EPC's, we were able to identify a solution that could provide an energy offset of 93% of their energy needs. This solution provided a term savings of \$1,900,000.

## Solutions Designed For Your Energy Needs

From giving you better control and saving you money with Natural Gas and Energy procurement to creating energy independence with energy efficiency and renewable energy solutions, Energy Professionals designs solutions for your energy needs and budget. Some of our core solutions include:

- Demand Response
- Backup Generation & Batteries
- Energy Intelligence
- Energy Procurement
- Energy Efficiency
- Bill Auditing & Expense Management
- HVAC New Life Restoration
- Microgrid Design & Implementation

## The Result

\$1,900,000 saved

Energy independence from utility

Reduction of 93%

## About Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.
