

Efficiency Project Saves U.S. Based Manufacturer 23%

Energy Independence. More Choice. Less Waste.

Efficiency Project Shows \$2.1 Million in Savings for Manufacturer

Energy Professionals specializes in Natural Gas and Energy procurement, offering competitive pricing and best in class service.

Introduction

When an Energy Professionals client needed to explore ways to become more efficient, but did not have capital improvements in their budget, they turned to Energy Professionals to find a solution that would reduce costs and help them move towards their organization's sustainability goals.

The Problem

-  Inefficiency causing waste
-  No budget for improvements
-  Increasing energy bills

As an organization, they knew there were many solutions that would help them operate in a more efficient way. With no money in their budget to get started, the client needed a solution that could maintain cash flow, while shoring up their building envelope.

The Solution

After a full analysis of their existing scene and their options, Energy Professionals was able to create a solution composed of lighting, HVAC improvements, and power factor correction that reduced cost, while keeping them cash flow positive through off balance sheet financing. Thanks to our nationwide network of top-tier efficiency solutions, Energy Professionals provided a turnkey solution that provided a term savings of \$2,100,000.

Solutions Designed For Your Energy Needs

From giving you better control and saving you money with Natural Gas and Energy procurement to creating energy independence with energy efficiency and renewable energy solutions, Energy Professionals designs solutions for your energy needs and budget. Some of our core solutions include:

- Demand Response
- Backup Generation & Batteries
- Energy Intelligence
- Solar & Renewable Energy Solutions
- Energy Procurement
- Bill Auditing & Expense Management
- HVAC New Life Restoration
- Microgrid Design & Implementation

The Result

-  \$2,100,000 saved
-  No out of pocket costs
-  23% Energy Bill Reduction

About Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.
